MUSHROOM FARM SUPERVISOR'S ESSENTIALS

Poland

partners:

WHO SHOULD ATTEND?

You will learn how to train and motivate pickers, manage yield and quality, implement proper hygiene, and use modern equipment effectively.

Harvest Managers

Course provides crucial strategies for building and maintaining an efficient harvesting system. Equips you with the tools needed to monitor team performance, collaborate with HR and coordinate closely with the Logistics, Sales, and Packing teams.

Harvesting Trainers

Course is essential for enhancing training programs and mastering effective harvesting techniques. The course offers insights into optimizing training schedules, refreshing skills, and ensuring new harvesters are well-prepared to meet quality standards.

Farm Managers

The harvesting department is the largest department on the farm, and its efficient operation is crucial to the farm's overall success.

Harvest Supervisor

We will teach you how to manage all harvesting staff and ensure quality production. The course provides strategies for overseeing daily operations, improving communication, and understanding the picture on the bed.

DAY 02

Tuesday, November 10, 2026

HARVESTING TECHNIQUES (FOCUS: YIELD OPTIMIZATION AND QUALITY CONTROL)

DAY 03

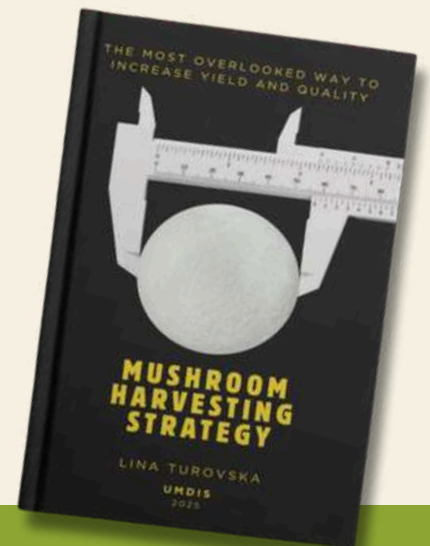

Wednesday, November 11, 2026

TEAM MANAGEMENT, MOTIVATION, AND BIOSECURITY (FOCUS: LEADERSHIP AND AUDITING)

LINA TUROVSKA

COURSE TRAINER

ABOUT

Lina Turovska brings global expertise in mushroom harvesting, gained through hands-on work with farms in Ireland, Canada, Poland, Ukraine, England, Italy, Hungary, and the Czech Republic. With 20 years of experience, she is the author of the proprietary “Mushroom Harvesting Strategy” method and the book “Mushroom Harvesting Strategy“, designed to optimise the harvesting process and increase farm efficiency.

EXPERIENCE

With hundreds of training sessions conducted worldwide, Lina has helped many farms increase their yields by 4–6 kg of mushrooms per square meter of shelving—simply by improving their harvesting techniques.

FARM FUNGI TEAM P&P RYMUZA SPÓŁKA KOMANDYTOWA

ABOUT

FUNGI TEAM P&P Rymuza Spółka Komandytowa is a modern commercial mushroom farm located in Kowiesy, Poland (Fungi Team, Siedlecka, 08-311). Founded in 2022, the farm produces over 800 tons of high-quality *Agaricus* mushrooms each month across 48 growing rooms. At FUNGI TEAM, you can observe all stages of button mushroom cultivation.
